**Acta Radiologica**

An international known journal in radiology.
Editor: Professor Arnulf Skjennald
Frequency: 6 issues (bi-monthly)

Articles on research in Radiology; research articles on Diagnostic and Interventional radiology, Clinical radiology, Experimental investigations in animals, and all other research related to imaging procedures, such as Abdominal and Gastrointestinal radiology, Breast radiology, Cardiac and cardiovascular imaging, Interventional radiology, Chest radiology, Experimental radiology, Neuroradiology, Urogenital radiology. Acta Radiologica provides a complete update on all radiological specialties and technical utilities, as well as physiology and physics related to imaging, including ultrasonography, computed tomography, radionuclide and magnetic resonance imaging.

Acta Radiologica is published by RSM Press on behalf of the Scandinavian Societies of Radiology, an association of the radiological societies of Denmark, Finland, Iceland, Norway and Sweden.

Indexing and abstracting
Acta Radiologica is abstracted/indexed in: Current Contents/Life Sciences, Current Contents/Clinical Medicine, Elsevier BIOBASE/Current Awareness in Biological Sciences, EMBASE/Excerpta Medica, Index Medicus/MEDLINE, Research Alert, Science Citation Index, SciSearch, Medical Documentation Service, Reference Update, Ad Referendum, University Microlms International, Scopus. 2011 Impact Factor: 1.369, (Radiology, nuclear medicine & medical imaging)

**Annals of Clinical Biochemistry**

An international journal of biochemistry & laboratory medicine
Editor: Dr Edmund Lamb
Frequency: 10 issues a year

One of the world's foremost in its field, Annals publishes fully refereed papers of international authorship that contribute to existing knowledge in all fields of clinical biochemistry, especially that pertaining to the understanding, diagnosis and treatment of human disease. It also publishes papers on immunology, genetics, biotechnology, haematology, computing and management where they have both biochemical and clinical relevance.

Annals is indexed or abstracted by Medline/PubMed, Thomson ISI, EMBASE, SIIC and RSC Analytical Abstracts. The 2010 Impact Factor for Annals of Clinical Biochemistry is 2.170.
About Clinical Ethics
Devoted to the application of ethics in clinical practice, research and policy
Editors: Professor Bobbie Farsides and Sue Eckstein
Frequency: 4 issues (quarterly)
Launched in 2006, Clinical Ethics is an important journal devoted to the discussion of key issues surrounding the application of ethics in clinical practice, research and policy. The journal contains articles under the headings of Case Studies, Public Policy and Law, Empirical Ethics and Papers. Additional material is included to help develop cross-disciplinary debate and increases the understanding of the complex ethical issues confronting providers and recipients of health care.
Archive: 2006

Clinical Risk
Patient safety, risk management and medicolegal issues in the UK
Editor-in-Chief: Harvey Marcovitch
Frequency: 6 issues (bi-monthly)

This leading journal gives both medical and legal professionals an enhanced understanding of key medico-legal issues relating to risk management and patient safety, through authoritative articles, reviews and news on the management of clinical risk. The AvMA Medical and Legal Journal and the Healthcare & Law Digest, both included within Clinical Risk, contain articles on current medico-legal issues and reports on a wide range of recent settled clinical negligence cases. Clinical Risk is an essential read for anyone working within the medical negligence fields or providing healthcare to the general public, both within the UK and abroad.
Indexing and abstracting
Clinical Risk is indexed or abstracted by EMBASE, Cinahl and ASSIA.

Experimental Biology and Medicine
Official Journal of The Society for Experimental Biology and Medicine
Editor-In-Chief: Steven R Goodman
Frequency: 12 issues (monthly)

Experimental Biology and Medicine is a journal dedicated to the publication of multidisciplinary and interdisciplinary research in the biomedical sciences. Published monthly, EBM provides both research and review articles as well as meeting symposia and brief communications. Articles in EBM represent cutting edge research at the overlapping junctions of the biological, physical and engineering sciences that impact upon the health and welfare of the world's population. Topics covered in EBM include: Anatomy/Pathology; Biochemistry
and Molecular Biology; Cell and Developmental Biology; Endocrinology and Nutrition; Immunology/Microbiology/Virology; Neuroscience; Pharmacology and Toxicology; Physiology; Bio-imaging; Biomedical Engineering; Bio-nanoscience; Genomics, Proteomics, and Bioinformatics; Stem Cell Biology; Systems Biology, and Translational Research.

EBM is currently included in the following services in print and/or electronic format: MedLine, Current Contents (Life Sciences, Science Citation Index, Social Sciences Citation Index, Research Alert [personalized search service], ISI/BioMed [on-line database]), Excerpta Medica, Biosciences Information Service, Reference Update/Research Information Systems, Chemical Abstracts, Chemical Titles and CAPlus.

The 2010 Impact Factor for EBM is 2.526 the 5-Year Impact Factor for EBM is 3.012.

**Hand Therapy**

Hand Therapy is the official journal of The British Association of Hand Therapists (BAHT) and the European Federation of Societies for Hand Therapy (EFSHT)

Editor: Christina Jerosch-Herold

Frequency: 4 issues (quarterly)

Hand Therapy is a peer-reviewed journal aimed at hand therapists and surgeons, occupational therapists and physiotherapists and other hand specialists. Its purpose is to publish original articles and short reports on the theory and practice of hand therapy and related fields. Suitable material is not limited to the practice of physiotherapy and occupational therapy for the hand, but includes related fields where these are a matter of interest to those in the practice of hand therapy.

**Health Services Management Research**

Providing authoritative information on all aspects of healthcare management

Editor: Peter Spurgeon

Frequency: 4 issues (quarterly)

Health Services Management Research is an authoritative journal providing expert information on all aspects of healthcare management. It examines the real issues confronting health services management, analyses policy initiatives and healthcare systems worldwide and provides evidence-based research to guide management decision making. Being research-based it also provides an independent view, as well as cutting edge information to support management action.

Health Services Management Research is abstracted or indexed by Medline/PubMed, EMBASE, Cinahl, ASSIA, the AHA Hospital & Health
Administration Index and the Hospital Literature Index. SJR ranking in Leadership & Management: Top in its field

**International Journal of STD & AIDS**
Clinical practice in sexual health
Editors: Martin Fisher and John White
Frequency: 12 issues (monthly)

This international journal provides a clinically oriented forum for investigating and treating sexually transmissible infections, HIV and AIDS. Contributors from around the world promote activities aimed at research, prevention and control of these infections. The journal contains in-depth editorial reviews, original articles and research, short papers, case reports, audit reports and CPD papers. There is also a lively correspondence column, a book review section, and news from the genitourinary medicine associations.

Indexing and abstracting
International Journal of STD & AIDS is abstracted or indexed by Medline/PubMed, Thomson ISI, EMBASE, CABI and SIIC.

The 2011 Impact Factor for the journal is 1.086.

**International Journal of Care Pathways**
Exploring all issues relating to integrated care pathways
Editor: Massimiliano Panella
Frequency: 4 issues (quarterly)

Our aim is to produce a leading international peer-reviewed journal which focuses on the issues of the growing area related to care pathways (CP) and the organization of care processes. The journal focuses on how pathways affect quality, safety, teamwork and efficiency, and the role of patients, carers, health and social care professionals, managers, policy makers and stakeholders, including the purchasers and commissioners of services and those who monitor them for efficiency and effectiveness. This journal includes research papers, case studies of CP projects and programs from all over the world. This includes issues relating to the CP itself and to the methodologies and outcomes related to planning, development, implementation and updating, education & training, communication and evaluation. Debate and commentary are also included, to encourage readers to think critically and constructively about the many broad issues surrounding the application, management and evaluation of the CP. The journal concentrates on highlighting areas of general applicability and practical significance and importance. It also addresses areas of conflict that may be associated with CP projects and programmes.

This journal includes news from the European Pathway Association and other international pathway societies and their conference reports.

Indexing and abstracting
International Journal of Care Pathways is indexed by Cinahl and EMBASE/Excerpta Medica

**Journal of Health Services Research & Policy**

Exploring the ideas, policies and decisions shaping health services worldwide
Editors: Professor Nick Black and Professor Nicholas Mays
Frequency: 4 issues (quarterly)

Journal of Health Services Research & Policy provides a unique opportunity to explore the ideas, policies and decisions shaping health services throughout the world. Edited and peer-reviewed by experts in the field and with a high academic standard and multidisciplinary approach, readers will gain a greater understanding of the current issues in healthcare policy and research. The journal's strong international editorial advisory board also ensures that readers obtain a truly global and insightful perspective.

Journal of Health Services Research & Policy is abstracted or indexed by Medline/PubMed, EMBASE, CABI, Cinahl, ASSIA and AHA Hospital & Health Administration Index.

The 2011 Impact Factor for Journal of Health Services Research & Policy is 1.73.

**Journal of Medical Biography**

A fresh perspective on historical figures and their impact on medicine
Editor: Dr Christopher Gardner-Thorpe
Frequency: 4 issues (quarterly)

This international quarterly publication focuses on the lives of people in or associated with medicine, those considered legendary as well as the less well known. The journal includes much original research about figures from history and their afflictions, thus providing an interesting, fresh and new perspective which can lead to greater understanding of each subject.

Journal of Medical Biography is a fascinating and compelling read, providing an insight into the origins of modern medicine and the characters and personalities that made it what it is today.

Indexing and abstracting
Journal of Medical Biography is indexed or abstracted by Medline/PubMed and SCOPUS.

**Journal of Medical Screening**

Essential information about screening, epidemiology and public health
Editor: Professor Nicholas Wald
Frequency: 4 issues (quarterly)

Journal of Medical Screening is concerned with all aspects of medical screening, particularly the publication of research that advances screening theory and practice. The journal aims to increase awareness of the principles of screening (quantitative and statistical aspects), screening techniques and procedures and methodologies from all specialties. An essential subscription for physicians, clinicians and academics with an interest in screening, epidemiology and public health.

Indexing and abstracting
Journal of Medical Biography is abstracted or indexed by Medline/PubMed, Thomson ISI, EMBASE, CABI and Cinahl.
The 2011 Impact Factor for the journal is 1.691.

**Journal of the Royal Society of Medicine-JRSM**
The UK’s most entertaining, educational and erudite journal for health professionals
Editor: Dr Kamran Abbasi
Frequency: 12 issues (monthly)

The Journal of the Royal Society of Medicine is a forum for debate, education and entertainment for health professionals interested in clinical medicine, as well as medical developments and research worldwide. The JRSM's prime responsibility is to its readers and its aim is to influence clinical practice and policy making across the medical world. Contributions to the JRSM reflect its international and multidisciplinary readership and include current thinking across a range of specialties.

JRSM has had its fair share of famous authors – some now past away authors such as James Parkinson who was an apothecary surgeon, geologist, paleontologist, and political activist. He is mostly known for being the first to describe "paralysis agitans", a condition now known as Parkinson's disease. Thomas Hodgkin one of the most prominent pathologists of his time and a pioneer in preventive medicine. He is now best known for the first account of Hodgkin's disease, a form of lymphoma and blood disease. Edward Anthony Jenner was a scientist, who is widely credited as the pioneering of smallpox vaccine and is sometimes referred to as the "Father of Immunology". James Blundell was an obstetrician who performed the first successful transfusion of blood to a patient. Sir Thomas Clifford Allbutt, a physician and inventor of the clinical thermometer. Sir James Paget, a surgeon and pathologist who is best remembered for Paget's disease and who is considered, together with Rudolf Virchow, as one of the founders of scientific medical pathology.

JRSM is indexed or abstracted by Medline/PubMed, Thomson ISI, EMBASE, CABI, SIIC and BIOBASE.
2011 impact factor: 1.411
**JRSM Short Reports**

Is a new, online-only, open access offshoot to the Royal Society of Medicine's flagship journal, JRSM. Under the editorship of Kamran Abbasi, this new journal will consider research papers and case reports for publication.

JRSM Short Reports will be a leading international resource of clinical articles on all aspects of improving patient care across all medical specialties. Free distribution, will ensure that authors have wide exposure for their work. Researchers and clinicians will find this an invaluable resource.

**Journal of Telemedicine & Telecare**

The leading international journal on telemedicine and e-health  
Editor: Professor Richard Wootton  
Frequency: 8 issues

Journal of Telemedicine and Telecare provides excellent coverage of developments in telemedicine and e-health and is now widely recognised as the leading journal in its field. Contributions from around the world provide a unique perspective on how different countries and health systems are using new technology in health care. Sections within the journal include technology updates, editorials, original articles, research tutorials, educational material, review articles and reports from various telemedicine organisations. A subscription to this journal will help you to stay up-to-date in this fast moving and growing area of medicine.

Indexing and abstracting  
Journal of Telemedicine & Telecare is abstracted or indexed by Medline/PubMed and Thomson ISI.  
The 2011 Impact Factor for the journal is 1.207.

**Laboratory Animals**

The international journal of laboratory animal science and welfare  
Editor: Dr Colin Dunn  
Frequency: 4 issues (quarterly)

Providing a unique perspective, this international journal of laboratory animal science and welfare publishes peer-reviewed original papers and reviews on all aspects of the use of animals in biomedical research. Particular emphasis is given to research that reduces the number of animals used or which replaces animal models with in vitro alternatives, leading to improvements in the welfare or well-being of the animals used.

Indexing and abstracting
Laboratory Animals is abstracted or indexed by Medline/PubMed, Thomson ISI, EMBASE and CABI.
The 2011 Impact Factor for the journal is 1.209, and SJR ranking in Veterinary: Top in its field Q1

**Medicine, Science and the Law**
Journal of the British Academy of Forensic Sciences
Editor: Professor Peter Vanezis OBE
Frequency: 4 issues (quarterly)

Medicine, Science and the Law is an academic journal that publishes peer-reviewed papers on a wide range of subjects of forensic interest. The journal aims to inform its readers from a broad perspective and demonstrate the interrelated nature and scope of the forensic disciplines. The journal will keep its readers informed of developments and trends through reporting, discussing and debating current issues of importance in forensic practice. Reviews, original research, case reports, viewpoint articles, letters and other relevant contributions are welcome on all forensic subjects and the law relating to forensic medicine and science.

Indexing and abstracting
Medicine, Science and the Law is currently included in the following services in print and/or electronic format: MedLine, PubMed, Current Contents (Life Sciences), Science Citation Index, Social Sciences Citation Index.
The 2011 impact factor for Medicine, Science and the Law is 0.446 and SJR ranking in Law: Top in its field Q1

**Medico-Legal Journal**
Official publication of the Medico-Legal Society
Editor: Barrister (lawyer) Diana Brahams
Frequency: 4 issues (quarterly)

Medico-Legal Journal provides an official record of the proceedings of the Medico-Legal Society, and is dedicated to promoting medico-legal knowledge in all its aspects. As well as providing a record of activity in the Society, the journal also includes a unique collection of contributions and speeches from eminent speakers at Society events. Commissioned articles cover a diverse range of topics such as: Developments in the European Legal Orders: Implications for the Medical Profession, Fact or Fiction? Verbal and Behavioural Clues to Detect Deception, Selecting Participants when Testing New Drugs: the Implications of Age and Gender Discrimination

Indexing and abstracting
Medico-Legal Journal is indexed or abstracted by Medline/PubMed and Scopus

**Menopause International**
The integrated journal of post-reproductive health
Editors: Edward Morris and Heather Currie
Menopause International is a highly cited resource of news, research and opinion. Aimed at all those involved in the study and treatment of menopausal conditions across the world, it will be a vital resource for all practitioners in this field of menopausal health. The official journal of the British Menopause Society, Menopause International has a broad scope, tackling all the issues in this field, including the current controversies surrounding postmenopausal health and an ageing and expanding female population. Prior to Volume 13, in 2007, the journal was known as Journal of the British Menopause Society.

Indexing and abstracting
Menopause International is abstracted or indexed by Medline/PubMed and EMBASE

**Obstetric Medicine**

The Medicine of Pregnancy
Editors: Sandra Lowe, Catherine Nelson-Piercy and Karen Rosene-Montella
Frequency: 4 issues (Quarterly)

Obstetric Medicine is an important new quarterly journal in the field of maternal medicine, edited by an international team of leading authorities in the field. We invite you to participate in this important development in obstetric medicine by submitting an article and taking out a discounted subscription for 2010. Obstetric Medicine publishes papers on all aspects of medicine affecting the pregnant woman, including conditions that pre-exist and arise de novo in pregnancy, and the long-term implications of pregnancies, including those complicated by disease, for maternal health. Articles reflect the contributions made by obstetric physicians in training, practice and research; obstetricians and gynaecologists; perinatologists; general physicians; and obstetric anaesthesiologists.

Indexing and abstracting
Obstetric Medicine is abstracted or indexed by EMCARE

**Phlebology**

The leading international journal of venous disease
Editor: Alun Davies and Steven Zimmet
Frequency: 8 issues

Phlebology is the only English language journal devoted entirely to venous disease and is officially endorsed by the American College of Phlebology. This peer-reviewed journal publishes the results of high quality studies and reviews on any factor that may influence the outcome of patients with venous disease. Readers benefit from authoritative information about all aspects of diseases of the veins and the subject matter is of interest not only to medical practitioners.
(dermatologists, vascular surgeons and radiologists) but also to nursing staff, allied professionals and scientists. Content includes reviews, full original papers, short reports and letters to the editor.

Indexing and abstracting
Phlebology is abstracted or indexed by Medline/PubMed, Thomson ISI and EMBASE.
The 2011 Impact Factor for the journal is 2.072, and is top in its field in Peripheral Vascular Disease

Scottish Medical Journal
Scottish Medical Journal is the official journal of the Royal College of Physicians and Surgeons of Glasgow.
Editor: Professor Robert Carachi
Frequency: 4 issues (quarterly)

Under the editorial leadership of Professor Robert Carachi and a distinguished editorial board, the journal aims for the prompt publication of original investigations in all branches of medicine in Scotland. Scottish Medical Journal provides a unique international information source for the latest news and issues concerning the Scottish medical community. Contributions are drawn from Scotland and its medical institutions, through an array of international authors. In addition to original papers, Scottish Medical Journal publishes, usually commissioned - educational review articles, case reports, historical articles, clinical memoranda and society abstracts.
Papers are accepted for publication on condition that they are offered to this journal alone and that they become the property of the Scottish Medical Journal.

Indexing and abstracting
MEDLINE, Current Contents (Clinical Practice), Science Citation Index and EMBASE/Excerpta Medica
2010 Impact Factor: 0.524. Leader in its field Q2 in Surgery

Tropical Doctor
The only journal written by and for health workers in developing countries
Editor: Tom Doherty
Frequency: 4 issues (quarterly)

Doctors working in developing countries are often isolated from medical colleagues and the latest developments in medicine and healthcare. This journal provides an ideal forum for sharing experiences and establishing best practice, aiding communication between medical professionals in different environments. Readers of Tropical Doctor benefit from medical expertise and practical advice on how to apply current medical knowledge to the special circumstances of developing countries. Most importantly, readers receive crucial information on the
prevention, management and treatment of prevalent diseases in tropical and developing countries.

Indexing and abstracting
Tropical Doctor is abstracted or indexed by Medline/PubMed, Thomson ISI, EMBASE and CABI.
The 2011 Impact Factor for the journal is 0.663. Scimago SJR ranking in Infectious Diseases: A leader in its field

**Ultrasound**
The Journal of the British Medical Ultrasound Society
Editor: Emma Chung
Frequency: 4 issues (quarterly)

Ultrasound is a multidisciplinary, charitable society comprising radiologists, obstetricians, sonographers, physicists and veterinarians among others. The journal aims to cover all aspects of medical ultrasound from the theoretical through to clinical applications and their impact on both workforce and patients. The journal fulfils both an educational and scientific research role. It publishes a mixture of invited review articles, current research, and descriptions of new techniques and equipment.

**Vascular**
The official journal of the International Society for Vascular Surgery
Editor: Dr Frank Veith
Frequency: 6 issues (bi-monthly)

Vascular represents the world of vascular surgeons and vascular specialists by publishing good articles, opinion pieces and reviews. Topics covered by the journal include: New surgical management strategies; Pathophysiology; Assessment; Surgical indications; Operative techniques and outcome; and Novel diagnostic and investigative techniques. Types of manuscript published by the journal include: Original Articles; Review Articles; Technical Articles; Case Reports; and Letters to the Editors/Commentaries.

Abstracting and indexing
Vascular is indexed in Current Contents/Clinical Medicine, EMBASE/Excerpta Medica, MEDLINE/PubMed, EBSCO, Science Citation Index Expanded and CrossRef.
The 2011 Impact Factor of Vascular is 0.891.
